# Join us Nov. 11-13 for **mhpa2015**

As Medicaid turns 50 this year, we marvel at its transformation from a fragmented, costly fee-for-service program to one that provides access to coordinated quality care and budget predictability via managed care. Because of this, our industry will play a bigger role than ever in the Medicaid story as more states consider expansion.

Join us on November 11-13, 2015 in Washington, DC for **mhpa2015**, the annual conference of Medicaid Health Plans of America and the premier educational and networking event for Medicaid managed care professionals. **mhpa2015** will examine Medicaid's 50-year evolution through thought-provoking sessions on the latest in health care operations, policies, and populations, as well as health plan best practices and discuss the challenges and opportunities ahead to strengthen Medicaid for the next 50 years.
